Look Inside...

November 1, 2009

Allegheny Imaging of McCandless, LLC, is Thankful for all of the offices that refer their patient's our way!

MARK THIS DATE DOWN IN YOUR PLANNER:
THURSDAY NOVEMBER 12, 2009

Allegheny Imaging of McCandless, LLC is proud to sponsor the Second FREE evening informational lecture by a medical expert right here in the North Hills! Our featured speaker for this event is **Donald Keenan, MD, PhD**, member of the American Society of Breast Surgeons. He is the newest member of the West Penn Allegheny Health System's Breast Surgical Oncology Team at West Penn Hospital. Dr. Keenan specializes in the evaluation & treatment of malignant and benign breast disorders. To register for this very informative program, please call **Physician Access at 412-DOCTORS (412-362-8677)** or toll free at 1-877-284-2000. Registration is limited so please register early.

Topic: **Breast Cancer Risk Assessment and Reduction**

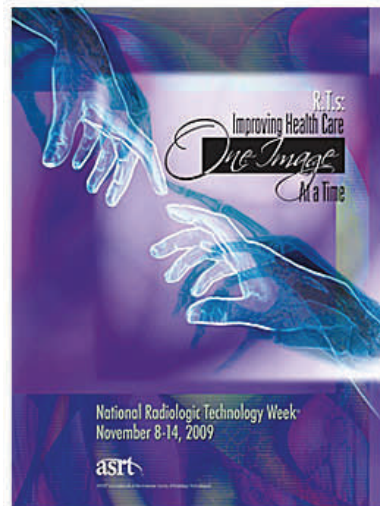

Date: **Thursday, November 12th, 2009**

Time: **6pm-7pm Registration 7pm-8pm Lecture**

Location: **AGH McCandless Building, 9335 McKnight Road, Pittsburgh, PA 15237**

Here are 4 Reasons WHY Dr. Keenan recommends attending this FREE Lecture: 1. There is a lot of misinformation regarding breast cancer risk. 2. Most women overestimate their own risk. Very few are "high" risk but rather "higher" risk. 3. A woman needs a brief math refresher course to truly understand risk. 4. For truly high or higher risk women there are options for better surveillance and options for risk reduction.

National Radiologic Technology Week®:
R.T.s Improving Health Care
One Image At a Time
November 8-14, 2009

National Radiologic Technology Week® is celebrated annually to recognize **the vital work of radiologic technologists** across the nation. The celebration takes place each November to commemorate the anniversary of the **x-ray's discovery** by Wilhelm Conrad Roentgen on Nov. 8, 1895. The week-long celebration calls attention to the valuable work of R.T.s in the health care field and the highly technical images that they make. The **images play an integral role** in the medical process and in the lives of millions of patients.

Best Doctors Report Recognizes WPAHS Physicians As Among the Nation's Finest

October 27, 2009

PITTSBURGH (October 26, 2009) – The latest edition of The Best Doctors in America, a peer-review-based guide to the nation's top healthcare professionals, lists 87 physicians from the West Penn Allegheny Health System (WPAHS) as among the nation's finest.

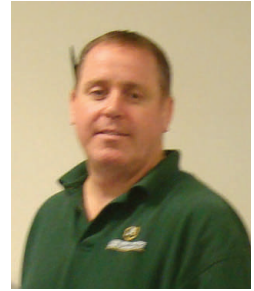

Best Doctors Inc. compiles the list annually, based on a confidential survey of physicians asking for nominations of doctors that they regard as the best-trained, most experienced and most skilled specialists in the United States, regardless of where they practice.

The Best Doctors survey asks, "If you or a loved one needed a doctor in your specialty and you could not treat them yourself, to whom would you refer them?" Each doctor surveyed may evaluate physicians currently on the list, or suggest additions for further review.

WPAHS is a physician-led healthcare organization based in Pittsburgh, PA. Recognized as the healthcare quality and personalized service leader in its market, West Penn Allegheny Health System's sole purpose and mission is to improve the health of the people in the Western Pennsylvania region.
